

AKGEC SKILLS FOUNDATION

Winter Training Program Details

BOSCH-REXROTH INDUSTRIAL AUTOMATION CENTRE OF EXCELLENCE

Training/Course Title:	Industrial Automation Technologies-Basic Level	
Target Audience:	Students	
Fee:	Rs. 7000/-	
Duration:	40 Hrs.	
Module	• Pneumatic system and its element. • Air preparation & Distribution System. • Pneumatic circuits with practical aspects. • Hydraulics, physical fundamental and principle of operation. • Hydraulic component (pumps, motors, cylinders, valves: directional, pressure, flow; accessories). • Basic hydraulic circuits. • Practice by self-trial of circuit making on demonstration power pack I. • Introduction to industrial controllers. • PLC basic and Ladder logic programming. • PLC specials function, online & offline monitoring.	
Outcome:	• Understanding of pneumatic and hydraulic systems, components, and basic circuit design. • Hands-on experience in building and testing hydraulic circuits on demonstration power packs. • Knowledge of industrial controllers and PLC fundamentals. • Ability to develop ladder logic programs and use PLC special functions. • Exposure to online and offline PLC monitoring for industrial applications.	
Certification:	The participants, on successful completion of above trainings, will receive joint certification by BOSCH-REXROTH & AKGEC.
