

AKGEC SKILLS FOUNDATION

Training Program Details

CENTRE NAME- MITSUBISHI ATC

Training/Course Title:	Factory Automation - Foundation	
Target Audience:	Students	
Fee:	7000/-	
Duration:	40 Hrs.	
Module	• Overview of iQ-R Series PLC features, configuration, Q Series comparison, and I/O addressing. • Introduction to GX Works3 with project creation and drag-and-drop programming. • Basics of PLC programming using relays, timers, counters, and built-in functions. • Practical use of third-party libraries and GX Works3 tools. • Analog and intelligent module programming, configuration, and I/O assignment practice. • Overview of sensor technology, construction features, and working principles • Hands-on practice in sensor integration and interfacing sensors with PLCs.	
Outcome:	• Strong understanding of iQ-R PLC architecture, I/O addressing, and GX Works3. • Proficiency in PLC programming using core instructions and libraries. • Ability to configure and program analog and intelligent modules. • Skills in Sensor integration and PLC interfacing.	
Certification:	The participants, on successful completion of above trainings, will receive joint certification by Mitsubishi & AKGEC.
