

AKGEC SKILLS FOUNDATION

Training Program Details

CENTRE NAME- MITSUBISHI ATC

Training/Course Title:	Factory Automation - Intermediate	
Target Audience:	Students	
Fee:	11000/-	
Duration:	80 Hrs.	
Module	• Strong understanding of iQ-R PLC architecture, I/O addressing, and GX Works3. • SSCNET-based servo system overview and configuration. • Practical positioning, parameter setting, and error handling. • Advanced synchronous motion and CAM control. • Overview, selection, and configuration of Mitsubishi 800 Series inverters and peripherals. • Inverter operation, parameter setting, modes, and hands-on practice using FR Configurator 2. • Control theories, auto-tuning, braking methods, and advanced motor control.	
Outcome:	• Configure and troubleshoot SSCNET-based servo systems. • Operate and configure Mitsubishi 800 Series inverters. • Apply advanced motor control and tuning concepts. • Integrate servo drives and inverters with PLCs.	
Certification:	The participants, on successful completion of above trainings, will receive joint certification by Mitsubishi & AKGEC.
