

Courses Offered

-  **Industrial Automation**
Basic | Advance
-  **Industrial AC & DC Drives**
Basic | Advance
-  **SIMOCODE**
Foundational-Level
-  **Process Instrumentation & Control**
Intermediate Level | Advance Level
-  **Switchgear**
Basic level

Career Opportunities

The Centre of Excellence in Siemens Automation at AKGEC equips students with industry-relevant skills, preparing them for diverse career paths in industrial automation, process control, and smart manufacturing.

The perfect balance
between theory and practice ...

 **30 : 70** 

Key Career Domains

Industrial Automation & Control:

PLC Programmer | Automation Engineer | Control System Engineer

Process Control & Instrumentation:

DCS Engineer | Process Engineer | Instrumentation Design Engineer

Electrical Systems & Drives:

Drives Engineer | Electrical Design Engineer | Maintenance Engineer

SCADA & HMI Systems:

SCADA Developer | HMI Designer | Industrial IoT Engineer

Project Design & Commissioning

System Integrator | Commissioning Engineer | Automation Project Engineer

Building & Smart Infrastructure Automation

BMS Engineer | Control Panel Designer | Smart Infrastructure Engineer

R&D and Technical Services

Application Engineer | Product Developer | Technical Trainer | Field Service Engineer

AKGEC SIEMENS COE FOR INDUSTRIAL AUTOMATION AKGEC SKILLS FOUNDATION

AKGEC Campus : 27th Km Stone, Delhi - Meerut Expy.,
Adhyatmik Nagar, Ghaziabad, Uttar Pradesh - 201009

AKGEC SIEMENS COE FOR INDUSTRIAL AUTOMATION

AKGEC Skills Foundation

AKGEC Skills Foundation (ASF) is an initiative of AKGEC supported by National Skill Development Corporation, Ministry of Skill Development and Entrepreneurship, Government of India to promote industry oriented skills in young people to make them employable. The AKGEC Skills Foundation, an ISO 9001 certified organization, offers courses at par with global didactic concepts, in line with National Occupational Standards (NOS) and Qualification Packs (QP). Its objective is to offer Skill development trainings through industryinstitution collaboration to empower youths under Certification by nationally and internationally recognized Industries / Societies / Industry Associations / Sector Skill Councils etc. AKGEC Skills has state of art training, prototyping, testing and measurement facilities in the field of Automation, Robotics and Manufacturing including PLC, DCS, Drives, Switchgears & Process Instrumentation Setups. These facilities are operational with active support from eminent Industry partners to meet the growing industry requirement of highly skilled manpower.

AKGEC-SIEMENS COE

Established in 2016, the Centre of Excellence in Siemens Automation at AKGEC, Ghaziabad, is a premier facility developed in collaboration with Siemens to bridge the gap between academia and industry. Equipped with state-of-the-art infrastructure, advanced PLCs (LOGO, S7-1200, S7-1500), DCS, SCADA, HMI, AC/DC Drives, and instrumentation systems, the Centre provides hands-on training and applied research opportunities. Organized into four specialized laboratories, it promotes experiential learning through modern equipment and innovative teaching aids. The Centre focuses on developing industry-ready professionals by equipping students with the technical expertise and practical skills essential for success in modern industrial automation.

Available Technologies

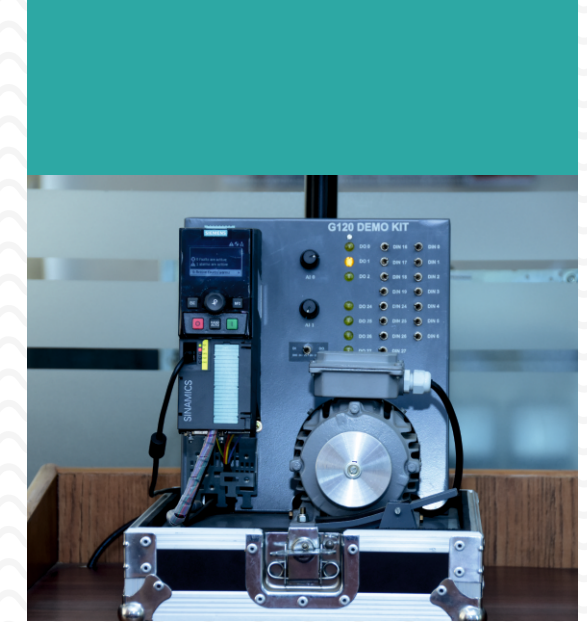

Automation and Control Systems

Siemens delivers advanced automation solutions with PLCs, SCADA, HMI, and DCS systems for intelligent, efficient industrial process control

Drives & Control

SINAMICS drives offer precise and efficient control of motor speed and torque for diverse industrial applications, including G120AC Drives and 6RA80 DC drives.

Switchgear

Siemens circuit breakers and motor starters provide reliable protection, smooth operation, and Type-2 coordinated safety for efficient industrial systems.

Process Instrumentation

Siemens provides reliable instruments for precise measurement and control of pressure, flow, temperature, and level-optimizing industrial performance.
